ENVIRONMENTAL, HEALTH, SAFETY & SECURITY POLICY

Boasso Global (BG) is committed to conduct its operations in a manner that protects our employees, surrounding communities, customers and the environment.

BG will meet or exceed all compliance obligations pertinent to our operations involving environmental protection, health, safety and security. We will operate our business according to the Guiding Principles of Responsible Care. BG maintains a management system which determines applicability and addresses the requirements of laws, regulations, company and other requirements regarding the Environmental, Health, Safety & Security of its operations.

BG's goal of zero EHSS incidents demands that we continue to work with employees, customers, communities and other interested parties to establish and maintain appropriate goals and objectives. Input from these stakeholders will be used to evaluate and continually improve our Responsible Care Management System performance.

BG is committed to preventing process and product-related safety incidents and managing risk by incorporating safety systems into our equipment; operating according to established procedures; applying safe work controls; maintaining equipment; employing risk assessments; maintaining appropriate security controls to both physical and technological instructions; learning from incidents; being prepared for emergencies; and assessing and improving performance.

Everyone at BG is responsible for upholding the company's high EHSS standards at all times. BG Senior Management will ensure that this policy and relevant legal and Responsible Care requirements are effectively communicated to employees and other appropriate stakeholders.

We will promote a spirit of openness with our interested parties so that hazards and risks associated with our operations are promptly reviewed to address concerns.

In order to assure continued relevance to the scale, nature and impact of our operations, we will review this policy annually, or whenever a significant change is considered.

Anthony Morsovillo
President

Nicky Macheca
VP of Operations
